Annual Conference
“Partners in Educational Technology”

A Summit for IT Professionals from K12, Community Colleges and Universities

Westin Innisbrook Golf Resort
Palm Harbor, Florida

September 19–21, 2005

F.A.E.D.S. / S.D.C.C.M.I.S.
WELCOMES YOU
**Tony Rybczynski** is Director, Strategic Enterprise Technologies, in Nortel, located in Ottawa and reporting to the enterprise CTO office. Tony has over 33 years experience in various forms of packet switching including X25, frame relay, ATM, IP and MPLS, and the application of packet switching for all forms of media. He now works with large enterprises to understand their business drivers and the value proposition of new networking technologies. He has written over 100 articles and is a graduate of McGill and University of Alberta (MSc- EE), is a Senior Member of IEEE, and is a co-author of a protocol reference book and a contributor to the ‘ATM for Dummies’ book.

**Mr. Kiernan** is presently a Business and Computer Professor at St. Johns River Community College. Prior to joining SJRCC, Mr. Kiernan had a long and extensive career with the IBM Corporation. During his twenty-nine year career he held Management and Consulting positions in many disciplines including: Sales, Supply Logistics, Product Planning, Market Forecasting, Product Development, Brand Management, and Customer Education. Mr. Kiernan holds a Master of Business Administration degree from Indiana State University. He and his wife Sandra now reside in St. Augustine, Florida.

**Dr. Mark David Milliron** is Vice President, Education Practice, for SAS. He received his B.S., summa cum laude, from Arizona State University, where he also received his M.A. as a Graduate Regents Scholar. His Ph.D. is in educational leadership from the University of Texas at Austin, where he was a Kellogg Senior Research Fellow. He has served as president and CEO of the League for Innovation in the Community College, executive director of Global Learning Initiatives with Oracle Corporation, and vice president for academic and student services at Mayland Community College in North Carolina among many other accomplishments.
September 19, 2005

Welcome to the FAEDS/SDCCMIS 2005 Annual Conference!

The Florida Association of Educational Data Systems is an organization for information technology educators from school districts, community colleges and universities (K-20). FAEDS objectives, as stated in the by-law’s, include the following: to promote and encourage appropriate use of information technologies, to provide for the sharing and exchanging of ideas and to facilitate, at the state and local levels, communication and cooperation among educational entities, agencies, organizations… regarding the purpose and use of information technologies and systems. www.faeds.org

With the rapid adoption of technology across our schools, colleges and universities by faculty and students, and the continuing improvement in the capabilities of the products and services we have to choose from, cooperation and communication are even more important than ever. This year we are pleased to have our colleagues from the Florida Council for Instructional Technology Leaders, the Florida Association for School Media, the Florida Association for Computers in Education and The Northwest Regional Data meeting during the conference. In addition, we have reorganized the conference to provide a focused opportunity on Tuesday to work closely with many of our sponsoring organizations. They represent a wealth of new ideas, products and services to the meeting. In the past, both attendees and presenters have had to make the hard choice between learning about new products in the exhibition hall and attending the conference sessions. With feedback from last year’s attendees, we have changed the agenda to address this issue. Our Tuesday Solution Day has been designed to provide a great opportunity to learn about new products, have some fun, and overall network with other participants and company representatives. My hope is that this will bring a new level of communication among all of us who are dedicated to the effective utilization of information technology in education.

With input from you, the program this year was designed to focus on the topics that concern us most. Let me offer my sincere thanks to everyone who worked hard to bring this conference together. There are many great sessions from our members and the Department of Education. I hope you leave this conference more informed and I encourage you to participate in future conferences.

John Opper
President, FAEDS
Dear Conference Attendees:

Welcome to the 2005 FAEDS Annual Conference! Now in our 41st year, FAEDS is proud to continue to host a forum for IT professionals to meet and exchange ideas and best practices.

We would like to extend a welcome to several organizations participating with us this year. FCITL, FACE, FASM and FAMIS members are joining us to bring new ideas and solutions to share. We also have NWRDC conducting training sessions during the course of the conference.

The theme for this conference is “Partners in Educational Technology”. I believe this theme is represented at all levels of conference participation. We have the opportunity to explore partnerships, new and old, with a wide array of solution providers and, just as importantly, with our peers, colleges, and associates.

With the help of our business partners, we are able to host a Solutions Center on Tuesday where there will be a large spectrum of technology solutions exhibited in displays and presentations throughout the day. Please don’t miss this chance to be updated on new directions and solutions.

We hope you will also use this unique opportunity to network with fellow IT administrators to discuss the challenges facing all of us in our rapidly changing environment.

I hope all of you will come away from this conference with a valuable experience, whether it is a newly formed partnership to implement a solution, an update on the constantly changing landscape, or a new peer contact to develop.

Please let me, or any of the FAEDS Board of Directors members, know of any ways we can improve your conference experience.

Sincerely,

Keith Parsons
President-elect

Conference Schedule
September 19–21, 2005

Conference Information

Edinburgh Foyer
Registration
Monday 7:30 a.m.–5:00 p.m.
       Wednesday 8:00 a.m.–11:00 a.m.

Inverness Foyer
Registration
Tuesday 8:00 a.m.–4:00 p.m.

Edinburgh Salon V
FAEDS Office

Stirling Salon Q
The Internet Cafe

Saturday, September 17, 2005

1:00 p.m.–5:00 p.m.  FAEDS Board Meeting
Stirling Salon N

Sunday, September 18, 2005

8:45 a.m.–2:45 p.m.  Meeting of FACE Board
Stirling Salon N

2:30 p.m.–6:00 p.m.  FAEDS Board Meeting
Edinburgh Salon VI

3:00 p.m.–6:00 p.m.  Meeting of FCITL Board
Stirling Salon L

Monday, September 19, 2005

8:00 a.m.–8:45 a.m.  Breakfast
Sponsored by Hayes

8:45 a.m.–9:45 a.m.  Opening Session
Edinburgh Hall West

Tony Rybczynski, Nortel
Networking Transformations Enabling Engaged Learning
The future of K-12 and community college education relies on a process of learning which engages all stakeholders—students, teachers, parents and administrators. The impacts that Internet technologies have had on the education system over the last 15 years are tiny compared to impacts technology-driven networking transformations will have over the next 5! The presentation will discuss five key networking transformations that will allow educational resources to extend seamlessly from the classroom into the home environment, enriching the student learning experience, enhancing teacher productivity and fast tracking student progress.
Monday, September 19, 2005

8:45 a.m.–11:50 a.m.
Meeting of: FCITL

10:00 a.m.–10:50 a.m.
Meeting of: FCITL

Windows Incident Response and Malware Analysis
John Saywer–University of Florida
Today’s compromises are becoming more and more difficult to detect, analyze and resolve. This presentation will go through incident response steps with a introduction to tools and techniques for responding to all levels of security incidents ranging from simple malware issues to a compromise by a malicious hacker followed by analysis of an unknown binary.

10:00 a.m.–10:50 a.m.
Edinburgh Salons VII–IX

CICS and the Web–Part I
Steve Menard
An introduction into how the mainframe CICS system can interface with the World Wide Web. This will be a powerpoint presentation, and a printed handout will be provided.

11:00 a.m.–11:50 a.m.
NWRDC Training Session

Network Performance
Craig Honour–CIO Duvall County Public Schools
The new application is slow. The vendor and the application team says the application runs fine everywhere else, it’s obviously a network problem. The network team says the application is a bandwidth ‘hog’ and slow. Who can you trust, who is right, and how do you get the application to run fine? This session will present real life application troubleshooting problems, metrics used to track down real problems and ideas for solving similar problems in the future.

11:00 a.m.–11:50 a.m.
Stirling Salons O & P

CICS and the Web–Part II
Steve Menard
An introduction into how the mainframe CICS system can interface with the World Wide Web. This will be a powerpoint presentation, and a printed handout will be provided.

12:00 p.m.–1:45 p.m.
Lunch

Business Luncheon

2:00 p.m.–2:50 p.m.
Edinburgh Hall West

DOE Update I
Kate Kemker–Technology Survey; Inventory for Teacher Technology Skills; Inventory for Student Technology Skills; Technology Integration Matrix
Monday, September 19, 2005

2:00 p.m.–2:50 p.m.
Edinburgh Salons VII–IX

The Learning Gateway: An Overview and Demo of the Integration of Microsoft Portal Technologies
Tony Franklin
Microsoft’s Learning Gateway, which is built upon Windows Sharepoint Portal Server is the framework upon which school districts can integrate critical student/district information into a centralized portal interface. The gateway will facilitate communication and collaboration features such as data analysis, document tracking, real-time communication, and integration with existing student information systems and the Sunshine Connection.

2:00 p.m.–2:50 p.m.
Stirling Salons O & P
NWRDC Training Session

CICS Debugging
Steve Menard
CICS debugging at the NWRDC will be discussed. The products CA-INTERTEST and CA-SYMDUMP will be covered as well as traditional IBM debugging facilities. This will be a powerpoint presentation and a printed handout will be provided.

3:00 p.m.–3:30 p.m.
Edinburgh Foyer

Afternoon Break
Sponsored by Insight Public Sector

3:30 p.m.–4:20 p.m.
Edinburgh Hall West

DOE Update II
Melinda Crowley- FIRN2

IBM

Blade Servers
Mark Baldino & Chris Lara, IBM, Mark Palmer, UF and Nicholas Clarke, NWRDC
Learn how the University of Florida made their decision to implement IBM BladeCenter and why NWRDC is so excited about this IBM technology running VMWare. IBM BladeCenter is the most advanced server solution in the industry. Come see how you can simplify your infrastructure and dramatically reduce your TCO (Total Cost of Ownership).

3:30 p.m.–4:20 p.m.
Stirling Salons O & P
NWRDC Training Session

DB2 Introduction and Access Summary
Chip Pollock
The subject of this class is DB2 at the NWRDC. This will be a powerpoint presentation and a printed handout will be provided.
Conference Schedule  September 19–21, 2005

Monday, September 19, 2005  continued

4:30 p.m.–5:20 p.m.  Edinburgh Hall West  Apple Computers

Pondering Podcasting?
Join Apple for a three-fold look into the magical world of Podcasting. First, learn how to search and find existing audio content tailored to your personal and professional interests. Then, discover how easy it is to create your own Podcast with professional results. Finally explore how to best support users who want to publish their own content.

4:30 p.m.–5:20 p.m.  Edinburgh Salons VII–IX  Using Handhelds for DIBELS Assessments and Transfer of Data to PMRN

Karl Hook and Wireless Generation
This session will provide information and demonstration on how Florida districts are using mCLASS DIBELS software to assess students and transfer clean and reliable data to PMRN.

4:30 p.m.–5:20 p.m.  Stirling Salons O & P  NWRDC Training Session  DB2 Tools at the NWRDC

Chip Pollock
The subjects of this class are the things that make DB2 work at the NWRDC. This will be a powerpoint presentation and a printed handout will be provided.

6:00 p.m.–7:00 p.m.  Edinburgh Foyer  Vendor Sponsored Social Hour

9:00 p.m.–11:00 p.m.  Toscana Ristorante  Monday Pub Party  Sponsored by Oracle

Tuesday, September 20, 2005

8:00 a.m.–12:00 a.m.  Inverness Hall A  Theater Session  Partners in Educational Technology Day  Events Listed Below

7:30 a.m.–8:30 a.m.  Inverness Hall Green Room  FAMIS Sub-committee Meeting

8:00 a.m.–8:45 a.m.  Inverness Hall B  Breakfast  Sponsored by UDTprotia
Tuesday, September 20, 2005

9:00 a.m.–9:50 a.m.
Inverness Hall A
Solution Session

JDL Technologies
Service Management for the Education Enterprise
Paul Del Prete, VP Technical Services
Increase ROI by building visible network operations and continuous improvement into your network environment—learn best practices for measuring, managing, monitoring and maintaining IT services. Also, understand current Desktop Management best practices. JDL’s session is designed to assist IT staff with realizing and maintaining the promise and ROI of such branded concepts as “on-demand networking,” “adaptive edge architectures,” “nTier Architectures,” and other well-marketed and developed network visions via discussion of real-world implemented and proven IT best practices developed to manage network services in the K-12 environment. JDL’s unique approach and experience in K-12 using a service management framework (based on the ITIL Standard) is illustrated and elaborated on as the process for supporting alignment of current network management people, products, processes and plans, and creating a lasting and scalable continual network improvement process.

9:00 a.m.–9:30 a.m.
Inverness Hall A
Theater Presentation

Oracle
Oracle and Peoplesoft - Better Together
Project Fusion is Oracle’s vision for next-generation enterprise technologies, applications, and services that will revolutionize business. The core of this vision is to protect customer investments and to extend and evolve the best functionality from PeopleSoft, JD Edwards, and Oracle product lines. Customers of these industry-leading applications should begin to benefit from planned Project Fusion advances with the next level of upgrades, as Oracle intends to deliver Project Fusion features in phases across these product lines.

9:00 a.m.–9:50 a.m.
Stirling Salons O & P
NWRDC Training Session

Basic Encryption Concepts–Part I
Joe Peresich
Get an overview of the world of encryption. This will be a powerpoint presentation and a printed handout will be provided.
Tuesday, September 20, 2005
continued

9:45 a.m. – 10:15 a.m.
Inverness Hall A

**Systems & Solutions**

*Network Security Considerations in the Education Environment*

Derek Welch and Leslie Whitworth

We will be discussing the necessity of complete network security in the educational environment. Due to the sensitive nature of much of the data, extra measures must be taken. We will feature a Network Security Questionnaire which we have found very beneficial in many of the accounts that we manage. We find it to be a great facilitator of conversations and actions that will improve overall security on these networks.

9:45 a.m. – 10:15 a.m.
Inverness Foyer
Theater Session

**MGT**

*MGT’s ePlan Solution*

*ePLAN* is the only comprehensive, systemic, school- and district-improvement planning and management site of its kind. With customized implementations in multiple states, it sets the standard for web-based management of a school or district’s improvement planning processes and required local and state reporting. The *ePLAN* product delivers school, district, and state-level assessment and demographic data for analysis and reflection by the improvement teams.

10:00 a.m. – 11:50 a.m.
Stirling Salons M & N

**Meeting of: FASM**

**Compuware**

*State of Florida’s Compuware Application Reliability Solution (CARS™)*

John Tauber – State and Local Government Sales Manager and Brian Lazenby – Software Engineer

The Compuware Application Reliability Solution (CARS™) unites testing professionals with a proven methodology and unique, industry-leading technology, to produce a complete quality management solution. The solution is comprised of various deliverables that, when packaged together, establish customized software testing processes as well as implementation of a pre-production application Testing Center designed to support achievement of the Quality Assurance objectives. The CARS™ approach is through the unification of, expertise, methodology and technology at a leveraged price that state agencies can afford.”
Tuesday, September 20, 2005

10:00 a.m.–10:50 a.m.
Stirling Salons O & P
NWRDC Training Session

10:00 a.m.–10:50 a.m.
Basic Encryption Concepts–Part II
Joe Peresich
Get an overview of the world of encryption. This will be a powerpoint presentation and a printed handout will be provided.

10:30 a.m.–11:00 a.m.
Inverness Hall A
Theater Session

10:30 a.m.–11:00 a.m.
Audio Enhancement
Can You Hear Me Now? Enhancing Audio in the Classroom
Gary Evans
This session presents dramatic research findings that illustrate why many students are not achieving to their full potential. Listening is the cornerstone of our educational system. Students spend over 70% of their day engaged in listening activities. Many students miss up to 1/3 of the Teacher’s instruction, leading to inattentiveness, behavioral problems and poor academic achievement. Audio Enhancement’s infrared technology is transforming classrooms nationwide. Speakers evenly distribute the teacher’s voice throughout the classroom improving student achievement 10–40%.

10:30 a.m.–11:00 a.m.
Inverness Hall Foyer
Theater Session

10:30 a.m.–11:00 a.m.
Presidium Learning
Are You Serious About Service?
The backbone for any successful deployment of IT and web-based application in education is world class customer service. Learn how forward-thinking academic institutions provide superior customer care to their educators, students, and staff. Presidium Learning has partnered with more than 200 organizations to provide cost effective, 24/7 customer contact management solutions via phone, live chat, and online self-help knowledge-base environments. Ipod give away at end of presentation.
Tuesday, September 20, 2005  
continued

11:10 a.m.–12:00 p.m.  
Inverness Hall A  
Solution Session

**Pearson School Systems**  
*From Data Collection to Analysis to Action*  
Diana Greene, Dept. Superintendent, Marion County Schools  
Join Marion County Schools as they describe how they get the critical information needed to drive school improvement and accountability. By combining the power of assessment, reporting, and student information solutions, Marion County staff members can quickly and easily manage all aspects of student performance and achievement. Partnering with Pearson School Systems, Marion County has embarked on a web-based journey for complete student information, assessment, and reporting consisting of Pearson Centerpoint, Pearson Benchmark, and Pearson Inform products.

11:10 a.m.–12:00 p.m.  
Stirling Salons O & P  
NWRDC Training Session

**TSO ISPF at the NWRDC -Part I**  
Paul Bageant  
We will cover TSO and its ISPF subsystem. We will also cover the IOF output monitor and the ISPF EDITOR. This will be a powerpoint presentation and a printed handout will be provided.

11:15 a.m.–11:45 a.m.  
Inverness Hall A  
Theater Session

**Milestone Systems**  
*Fixing Email*  
Richard Dandliker, IronPort Systems  
Email is in jeopardy. While our dependence grows, so do the complexity of the threats. These blended threats of spam, viruses, and phishing are compromising networks, diluting employee productivity, and causing consumer skepticism. Fortunately, there are things that can be done to make email useful again. This presentation discusses ideas on how technology, policy and consumer best practices play a role to save email. A TiVo will be given away during this session!

11:15 a.m.–11:45 a.m.  
Inverness Foyer  
Theater Session

**SCT**  
*The Unified Digital Campus*  
SunGard SCT enables educational institutions to achieve a Unified Digital Campus, an environment in which systems, individuals, and communities interact seamlessly for learning, teaching, administration, and achievement. Through the technologies we build and deliver, SunGard SCT’s mission is to help institutions serve learners as they achieve their educational goals and to help administrators, faculty, staff members, and other campus personnel excel at their individual responsibilities. This session presents the UDC experience of some of our customers.
Tuesday, September 20, 2005

12:00 p.m.–1:45 p.m.
Inverness Hall B
Lunch

2:00 p.m.–2:50 p.m.
Inverness Hall A
Solution Session

Sponsored by e-TechServices.com, Inc.

**Personal Computing Technology Trends and Directions**

**Lunch with Bill Kiernan, St. John's Community College**

Mr. Kiernan will review the current outlook on impending technology in the technology areas critical to Education—Personal Computers, Tablet Computers, Wireless Technologies, Security Trends. While keeping the presentation lively with humor, Mr. Kiernan will highlight key technologies that Educator’s will face in the next 12-18 months.

2:00 p.m.–2:50 p.m.
Inverness Hall A
**Solution Session**

**Advanced Technology Services**

Claude Mc Cann the Vice president of Finance for the University of Alabama–Birmingham (UAB)

Claude Mc Cann will address the importance of document management in education, with emphasis on the following items: Business Process Improvement (BPI), security and backup storage, open architecture, ease and speed of use, very rapid deployment, scalability and adaptable family of solutions. UAB has a site license for the ATS flagship products OptiDoc and WebIT.

2:00 p.m.–2:30 p.m.
Inverness Hall A
**Theater Session**

**SAS**

**SAS Made Easy: An Introduction to SAS Enterprise Guide**

Susan Walsh, Higher Education Consultant, SAS

An introduction to SAS Enterprise Guide to easily summarize, analyze, and report on your data using this point-and-click interface to the power of SAS software.

2:00 p.m.–2:50 p.m.
Stirling Salons O & P
NWRDC Training Session

**TSO ISPF at the NWRDC- Part II**

Paul Bageant

We will cover TSO and its ISPF subsystem. WE will also cover the IOF output monitor and the ISPF EDITOR. This will be a powerpoint presentation and a printed handout will be provided.

2:00 p.m.–2:50 p.m.
Inverness Foyer
**Solution Session**

**Gateway**

**Disaster Recovery and Business Continuance**

Keith Hannah, Systems & Storage Engineer

Workshop on methods and technologies to enable business continuance and disaster recovery in an education environment. Tools to meeting Service Levels, with information lifecycle management. Block level replication and/or iSCSI over limited bandwidth connections and centralized backup solutions for the entire district or campus at a price you can afford.
Tuesday, September 20, 2005

2:45 p.m.–3:15 p.m.
Inverness Hall A
Theater Presentation

Nortel Networks
Innovation in Education
Matt Jackson

Technology is transforming the future of education with new learning opportunities, improved communication and optimized security. K-12 education is challenged with ensuring student success, providing professional staff development, enabling safe schools and protecting IT assets while lowering the total cost. Technology can build engaged learning communities of teachers, administrators, parents and students in monitoring and support of learning paths; improve school accessibility and accountability in learning outcomes and enhance effective access to resources. Session will spotlight multimedia and collaboration tools, wireless communications, and both physical and IT resource security.

3:05 p.m.–3:55 p.m.
Inverness Hall A
Solution Session

Smartweb Technologies
HATS: Step by Step
David Scott, Vice President of Development

Using a actual classroom exercise, we’ll be showing you how to get immediate results with HATS and demonstrate its power to turn green screen applications into browser based, internet accessible applications. HATS is the quickest, easiest way to improve host application productivity. The HATS rules-based transformation engine can make it possible to extend your host applications to the Web within hours of installing the software.

3:05 p.m.–3:55 p.m.
Stirling Salons O & P
NWRDC Training Session

FTP–File Transfer Protocol at NWRDC
Joe Peresich

This session will cover File Transfer Protocol concepts and how to use the standard to exchange files with NWRDC and other Internet hosts. This will be a powerpoint presentation and a printed handout will be provided.

3:30 p.m.–4:00 p.m.
Inverness Hall A
Theater Presentation

Media Blend
Using the Internet to Save Time and Money!
Scott Garland

MediaBlend will share information on three education based products for online class registration (GoSignMeUp), online surveys (GoBuildaSurvey) and auto website building for teachers and schools (GoSiteBuilder). These tools will allow your employees to use technology and the Internet to organize, collect and share information.
Tuesday, September 20, 2005
continued

4:10 p.m.–5:00 p.m.
Inverness Hall A
Solution Session

Information Builders
Performance Management for Everyone
David Cook, Director of Performance Solutions
Overview and demonstration of performance management solution that integrates existing data systems and provides a decision-support platform for robust, analytical performance management reporting. No matter which management philosophy you choose, this solution helps capture and report on performance indicators that provide feedback on how well you are implementing your strategy and mission—ultimately identifying sources of failure and isolating best practices that lead to success. Portable DVD Player is to be given away!

4:10 p.m.–5:00 p.m.
Stirling Salons O & P
NWRDC Training

PGP–Pretty Good Privacy Encryption
Joe Peresich
This session will cover how to use PGP at the NWRDC. This will be a powerpoint presentation and a printed handout will be provided.

4:15 p.m.–4:45 p.m.
Inverness Hall A
Theater Session

ClassLink
Optimizing Educational Benefits and TCO of Application Server Solutions
Conducted by Stanley Watts, ClassLink VP of Engineering, a review of the current state of technology regarding application servers and thin-client-based solutions for today’s K-12 classrooms. The latest ClassLink Information Console management software and a cost benefit analysis will be presented.

6:00 p.m.–7:00 p.m.
Inverness Foyer

Social Hour
Sponsored by SMC Networks

7:00 p.m.–8:30 p.m.
Inverness Hall B

Banquet

9:00 p.m.–11:00 p.m.

| 10:00 a.m.–10:50 a.m. | Edinburgh Salons VII–IX | Desktop Management Tools                                               |
|                  |                    | Tim Chiacchura, Dartmouth College                                       |
|                  |                    | This session presented by Dartmouth College will focus on the use of the LANDesk Management Suite to handle network security and asset management. |
11:00 a.m.–11:50 a.m.  
Edinburgh Hall West  

**NWRDC Vendor Alliances**  
Through vendor alliances, NWRDC expands its service offerings and provides strategic and robust IT solutions to fully meet customers’ business needs.

11:00 a.m.–11:50 a.m.  
Edinburgh Salons VII–IX  

**Florida Distance Learning Consortium**  
*The Orange Grove—A Digital Repository for Florida K20 Education*  
Susie Henderson, Associate Executive Director  
“Digital repositories” and “learning objects” have become buzz words used loosely in the world of education. Learn about the critical features of a repository and the resources stored in it. Which standards are important? What has Florida done to establish a successful repository and position itself to participate in the regional and global content economy? What does this mean for your school, college or university.

12:00 p.m.–2:00 p.m.  
Edinburgh Hall East  
**Lunch**

**Sponsored by SAS**  
*Insight Expectations: Issues and Implications for Educators*  
**Lunch with Mark Milliron, SAS**  
Services like Amazon.com, TiVo, and online banking have driven the expectation that technology will be thoughtfully used to better enable teaching and learning, student services, and institutional management. Moreover, they have driven the expectation that institutions will leverage “insight”—enterprise intelligence systems, data mining, and predictive analytics—to make a difference in how they teach and reach students, better customize services, and drive strategic planning and accountability efforts. During this presentation, we’ll track similar movements in the commercial, government, and healthcare industries, and look at the implications and issues surrounding the search for insight in the world of education.
Conference Schedule  September 19–21, 2005

Wednesday, September 21, 2005  continued

1:45 p.m.–3:00 p.m.

A host of excellent dining options awaits you at The Westin Innisbrook Golf Resort

At The Westin Innisbrook Resort the guest is king. Your dining experience begins with a staff that is attentive to your every need.

With four different restaurants to choose from, you’ll savor culinary delights and experience a level of service that is distinctly Innisbrook’s.

Innisbrook’s food and beverages are also available to our guests, in suite, from 6 a.m. to midnight, through our Guest Suite Dining service.

Dining and entertainment takes place at the resort’s clubhouses with each offering a wide variety of tantalizing menus.

**Bamboo’s Caribbean Café**
Enjoy casual dining in a Caribbean motif offering a wide variety of salads, sandwiches, fresh seafood and steaks. Located in the Highlands Clubhouse, Bamboo’s is the perfect meeting spot after a round of golf or to catch your favorite sporting event on our large screen TVs, complete with pool tables and dart boards there is something for everyone. Open daily for breakfast, lunch and dinner.

**DY’s Steak House**
Serving only the finest certified Angus Beef, DY’s Steak House was fashioned after the famous Shula’s Steak House brand. DY’s offers sumptuous steak and seafood dinners, and a signature martini list you won’t want to miss. Breakfast and lunch are also served at DY’s in a comfortable clubhouse setting.

**The Grill at Loch Ness**
Offering something for the entire family, the Grill at Loch Ness combines casual dining in a relaxed atmosphere. Serving the best frozen drinks inspired by the tropics along with quick light fair including fruit salads, chicken sandwiches, monster dogs and hamburgers. Kid’s meals include a sand pail to take to the poolside beach for added mealtime fun. Daily drink and food specials are available while you watch your favorite team on our televisions.

**Turnberry Pub**
Named after our famous sister resort in Scotland, Turnberry Pub is the perfect dining experience for the whole family. Enjoy casual dining inside, or on the Garden Patio overlooking the scenic Island Golf Course. The menu offers a pleasing variety of American cuisine, in a family-friendly setting. Open daily for breakfast and lunch.

**Toscana Ristorante**
Try a “Taste of Italy” at Toscana Ristorante! Enjoy delicious Italian Cuisine while you delight at the panoramic view of the scenic Island Golf course. Open during season, the Toscana Ristorante offers a lavish array of Italian delicacies, fresh salads, antipasti, desserts and much, much more. Located on the upper level of the Island Clubhouse. Open Thursday, Friday and Saturday at 6 to 10 p.m.
Recreation Options

What is the best way for parents to enjoy a relaxing vacation? By having piece of mind that the kids are having plenty of their own fun! At The Westin Innisbrook Golf Resort, you’ll find the kids have lots of places to go for excitement. And you can go with them as well.

Loch Ness Pool and Spa  This is truly a lot more than a pool! The kids will love the two winding water slides, sandy beach areas, pop-jets and cascading waterfall. Plus, there’s always a variety of special games and activities for all ages coordinated by an enthusiastic resort recreation staff. You’ll also enjoy poolside lunch and refreshments from The Grill at Loch Ness.

Fishing Rentals  Fresh water fishing is available along the banks of Lake Innisbrook. Equipment rental is offered at the Recreation Center.

Miniature Golf  Fun for all ages awaits with a round of mini-golf at our Recreation Center.

Playground / Bike Rental  Swings, slides and a variety of playground equipment are available at our Recreation Center. Bicycles, basketballs and other gear are also offered.

Nature Boardwalk  Enjoy a leisurely stroll, feed the ducks and take in the tranquility of this natural setting.

Golf & Tennis Clinics  Offered daily for all ages and ability levels. Junior golfers will enjoy a special complementary golf clinic each Saturday morning with Innisbrook’s professional golf staff.
